

# SOUTHWORTH ASSOCIATES

Lending a hand...  
any time, any place

The Recovery Enhancement Program (REP) has two case management options available to assist individuals and families throughout their recovery journey. Both options are designed to provide support and resources in order to strengthen the recovery process.

## Level I

- Coordinating randomized drug screens
- Optional collaboration with Soberlink, Inc. for mobile alcohol monitoring
- Tracking attendance of mutual support group
- Tracking meetings with a sponsor, therapist and/or psychiatrist
- Tracking attendance at Aftercare or Outpatient services, as recommended
- Providing monthly disclosure of program progress to participants personal contacts
- Check-ins with participant, family members, and aftercare providers, as needed

## Level II

- Coordinating randomized drug screens
- Optional collaboration with Soberlink, Inc. for mobile alcohol monitoring
- Tracking attendance of mutual support groups
- Tracking meetings with a sponsor, therapist and/or psychiatrist
- Tracking attendance at Aftercare or Outpatient services, as recommended
- Providing monthly disclosure of program progress to participants personal contacts
- Consistent check-ins with participant, family members, and aftercare providers, as needed
- Coordination between SA case manager, treatment center, and family while participant is still in treatment
- Assistance provided for participant transitioning between various levels of treatment
- Individualized aftercare referrals, as needed
- Participants, along with their family members, engage in a 12-month interactive online recovery program designed to provide support and increase accountability, exclusive to Southworth Associates.
- Case manager serves as liaison between participant and entire support network
- Budget and money management assistance available, as needed
- 24/7 Access to Program Coordinator, John Southworth, CADC, CIP

\*Southworth Associates is not a healthcare provider and the Recovery Enhancement Program is not a treatment program.
